## Opus Utility Services Ltd - Type 1 803 Testing Results Summary

Key GREEN	Category A	The material is within specification for those tests undertaken on the material delivered and provided it is laid correctly, should present no problem  Materials can be considered satisfactory and in practice, will give no significant difference in performance compared to a category A material as they are marginally out of specification and generally fall within the limits of repeatability.							
AMBER	Category B Category C	These materials are out of specification and the performance of the material maybe adversely affected. These materials are unacceptable and use should be stopped until a way forward between the Client, HA, Recycle group & UKAS Lab has been agree
